Uvod

Korišćene tehnologije

- HTML
- CSS
- JavaScript
- PHP
- Bootstrap
- JQuery

Template za izradu sajta preuzet sa [Male-Fashion](#).

Okruženje

Visual Studio Code

Opis funkcionalnosti

Sajt predstavlja online prodavnicu odjeće, na kojem se produkti mogu pretraživati, filtrirati i sortirati po raznim kriterijumima, ocenjivati i kupovati. Korisnicima je potreban nalog da bi mogli kupovati, ostavljati utiske, ocenjivati i dodavati produkte na listu želja.

Dinamički meni

Dinamički ispisan meni, „header“ u kojem se prikazuju linkovi za logovanje i registraciju ako korisnik nije logovan ili korisničko ime i prezime ako je korisnik logovan, logout i često postavljena pitanja.

Home

Na home stranici osim gomile statičkog sadržaja nalaze se dva taba sa novim i produktima koji su najbolje ocijenjeni.

Shop

Shop stranica prikazuje sve proizvode, sadrži pretragu, filtriranje po kategorijama, brendovima, cijeni, bojama i veličinama, sortiranje po cijeni i imenu i paginaciju. Sva filtriranja i sortiranja su usklađena i odrađena AJAX-om. Svakom proizvodu prikazan je naziv, cijena, broj ostavljenih utisaka i prosečnu ocenu prikazanu kroz zvezdice. Prelaskom kursora preko proizvoda prikazuju se boje u kojim je proizvod dostupan kao i opcija za dodavanje proizvoda na listu želja i opcija za detaljniji prikaz.

Contact

Sadrži formu za kontakt administratora. Podaci se validiraju na klijent i server strani. U slučaju greške korisnicima je dato uputstvo za pravilan unos.

Wishlist

Prikazuje proizvode dodate na listu želja trenutno ulogovanog korisnika.

Log in i Sign up

Podaci iz obje forme se validiraju na klijentskoj i serverskoj strani sa ispisom grešaka i uputstava za korisnike.

Product Details

Sadrži fotografije proizvoda iz više uglova, opšte informacije, utiske i ocene, slične proizvode.

Korisnik na ovoj stranici dodaje produkt u korpu. Prvo se selektuje boja pa sve ostale opcije kupovine i na kraju „Add to Cart“. Dodavanje je odrađeno Ajax-om.

Admin na ovoj stranici nema „Add to Cart“ opciju već „Edit Product“.

Cart

Stranica na kojoj su tabelarno prikazane informacije u produktima dodatim u korpu. Sadrži prikaz ukupne cijene i opciju za pražnjenje korpe ili za odlazak na checkout.

Checkout

Stranica sa formom za checkout, sadrži delimično popunjenu formu iz koje se podaci validiraju na klijentskoj i serverskoj strani. Klikom na checkout ako je sve validno porudzbina se upisuje u bazu a korisnik salje na home page.

User Panel

Stranica prikazuje sve porudžbine korisnika sa punim informacijama o datumu poručivanja, plaćanju i da li je porudžbina isporučena i preuzeta. Ispod svake porudžbine prikazani su i pojedinačni proizvodi koji joj pripadaju.

Admin Panel

Admin panel sadrži pet tabova.

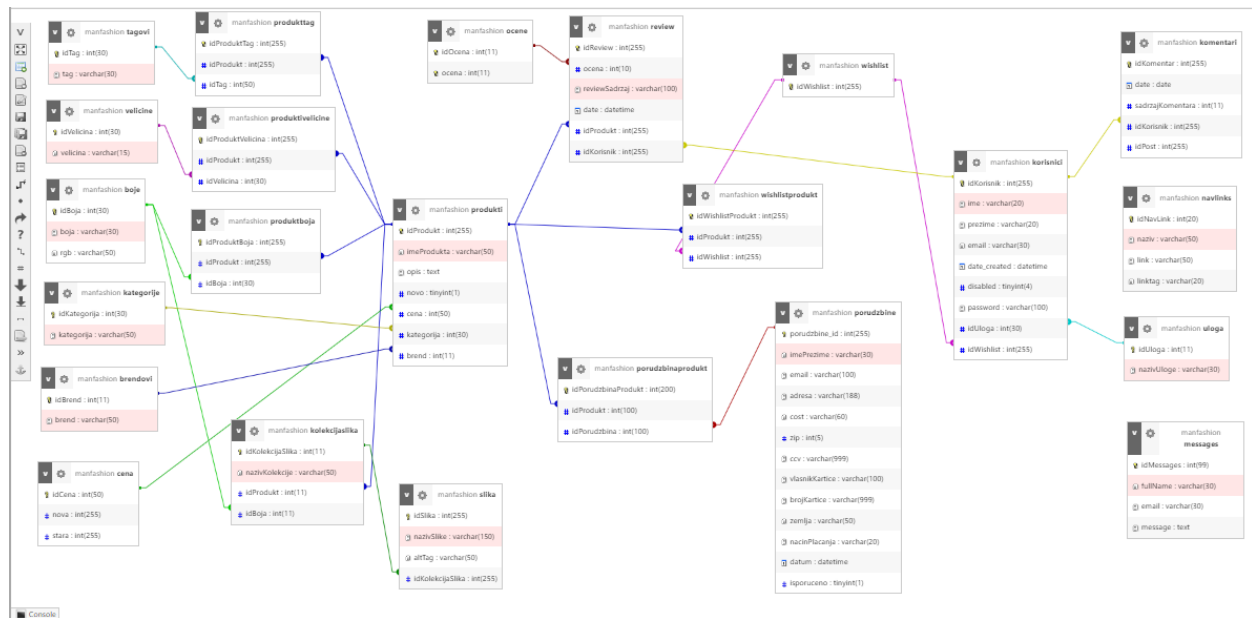

- Logs – pristup stranicama u procentima i ukupan broj posjećivanja, svim logovanjima korisnika sa IP adresom, vremenom i statusom logovanja i svim aktivnostima admina.
- Orders – sve porudžbine korisnika u tabelarnom prikazu sa punim imenom, email-om, adresom isporučivanja, produktima porudžbine i opcijom čekiranja isporučenih porudžbina.
- Add Product – dodavanje proizvoda, validacija je odrađena samo na serverskoj strani.
- Edit Product – editovanje izabranog produkta, validacija je odrađena samo na serverskoj strani.
- Messages – tabelarno prikazane poruke poslate sa contact stranice sa opcijom brisanja i odgovora na mail.

Footer

Pored navigacionih linkova sadrži link ka Author stranici i dokumentaciji.
